

ABV-Indian Institute of Information Technology and Management, Gwalior
(Academic Session 2025-26, Odd Semester)

Subject: Principles and Practice of Management (PPM)

Examination: Mid-term

Duration: 02 Hrs

Max. Marks: 40

Instructions: Attempt all the questions. Each question carries equal marks. Critically think before answering the questions. Answers must be very precise and clear. Unnecessary writing may lead to a negative impact on marking. You can make suitable assumptions as needed in the process of answering the questions.

1. Define management, explain whether management is an art or a science, and discuss its various functions in detail with a suitable example.
2. Who is a manager? Describe the different levels of management and explain the skills required at each level.
3. Discuss the evolution of management and explain the "Scientific Management Theory" in detail.
4. What are the nature/characteristics of management? And explain the "Administrative Management Theory" in detail.
5. What is the scope of management? And explain the "Neo-classical Theory or Behavioral Approaches" in detail.

ABV- Indian Institute of Information Technology & Management, Gwalior

First Semester 2024-25

End Semester Examination

Course Code & Title: (MS601) Principles and Practices of Management

Date: 02/Dec/2024

Time: 10 AM to 1 PM

MM: 40

Duration: 3 Hours

Note:

- 1) This is a closed book exam.
- 2) Read and follow all the instructions printed on the answer sheet.
- 3) Question paper has 8 questions and 2 pages printed back to back.
- 4) All the questions are compulsory.
- 5) All parts of a question should be answered consecutively. Each answer should start from a fresh page.
- 6) Use of Calculator is allowed.

Q.1 Briefly explain the key strategies used by Starbucks for making the employee base loyal. [3M]

Q.2 "Baahubali's Katappa is one of the best examples of servant leadership in practice." Justify the statement by citing proper evidences from the case study. [3M]

Q.3 Explain the scenario of decisional dilemma in maintaining industrial peace in Indian PSU's. [3M]

Q.4 List and explain the key strategies used by Walmart for dealing with store wars. [3M]

Q.5 Explain the sustainable business model of Malaysian Airlines. [3M]

Q.6 Write short notes on the following by citing appropriate examples. [12*1=12M]

- a) Captive Product Pricing
- b) Mark-up Pricing
- c) Target Costing
- d) By-Product Pricing
- e) Target Costing
- f) Psychological Pricing

- g) Target Return Pricing
- h) Value based pricing
- i) 4/10 net 30
- j) Odd Pricing
- k) Deceptive Pricing
- l) STP

Q.7 Briefly discuss the simulation exercise conducted in the class with key decision variables and their relevant implications. [3M]

Q.8 As a manager you need to meet the deadlines of the crucial projects in an effective and efficient manner. In the said scenario project crashing may be of great help. Draw the network diagram and determine minimum total time and corresponding cost from the following information. **[10M]**

Activity	Normal Time (Days)	Crash Time (Days)	Normal Cost (INR)	Crash Cost (INR)
1-2	9	6	640	700
1-3	8	5	500	575
1-4	15	10	400	550
2-4	5	3	100	120
3-4	10	6	200	260
4-5	2	1	100	140

Overhead Cost: INR 60 per Day

*****End of Question Paper*****

ABV- Indian Institute of Information Technology & Management, Gwalior

First Semester 2024-25

Mid-Semester Examination

Principles and Practices of Management (MS-601)

MM: 30

Duration: 2 Hours

Note:

- 1) This is a closed book exam.
- 2) Read and follow all the instructions printed on the answer sheet.
- 3) Question paper has 7 questions and two pages printed back to back.
- 4) All the questions are compulsory.
- 5) All parts of a question should be answered consecutively. Each answer should start from a fresh page.
- 6) **Calculator is allowed.**

Q.1 Write short notes on the following with appropriate examples.

[8*1=8M]

- | | |
|---|--|
| a) Maslow's hierarchy of needs | e) Value chain |
| b) Herzberg's motivation-hygiene theory | f) Skinner's behavior modification |
| c) McGregor's theory X and theory Y | g) Ideal design process (Case: Recalling Toyota) |
| d) Consumer Surplus | h) Mintzberg's Managerial Roles |

Q.2 Briefly explain SWOT and PESTEL analysis in the context of SAMSUNG.

[3M]

Q.3 Main four approaches to organization, structure and management range from classical approach to contingency approach. In line of this statement explain the emphasis of each of these approaches.

[2M]

Q.4 List and explain the 4 P's of Toyota way model.

[3M]

Q.5 Briefly explain Garvin's eight dimensions of quality and its linkage with Ishikawa's quality characteristics.

[2M]

Q.6 Explain the ways in which Fayol's principles can be matched to Porter's cost-leadership and differentiation strategy in terms of strategy implementation. [4M]

Q.7 Consider the case of the Storrs Manufacturing Company, located in West Hartford, Connecticut. The company has developed and test-marketed the "Golden Bear Golf Cart," a new and highly energy-efficient golf cart. The product is unique, and preliminary indications are that Storrs can obtain a substantial share of the national market if it acts quickly to expand production from its current level of 400 units per month. Data from independent consultants retained by Storrs indicate the following monthly demand, total revenue, and marginal revenue relations:

$$P = \$7,500 - \$3.75Q$$

(Demand)

$$TC = \$1,012,500 + \$1,500Q + \$1.25Q^2$$

(Total cost)

Calculate the profit maximization and revenue maximization output levels and corresponding price, total revenue, and the maximum total profit. [8M]
